

Now Available! Rocker and Wobble Boards

Are you ready for a new sensation in balance training?

Then step up on new Thera-Band[®] Rocker and Wobble Boards featuring sensory-stimulating surfaces to provide improved feedback. The Rocker Board is uni-directional, and the Wobble Board is multi-directional. They both have anti-slip bases that will stay put, even when your patient can't. Use with Thera-Band[®] green, blue and black Stability Trainers to make your own System of Progressive Balance Training.
